

# Forecasting the Next Decade of Wyandotte County

Wyandotte County has emerged as a hotbed of development activity in recent years. Momentum gained when the county was picked as the site for a NASCAR race track has blossomed into retail growth, entertainment projects such as Schlitterbahn and CommunityAmerica Ballpark, and, still in the works, a casino and Kansas City Wizards soccer stadium. A county once known for flagging heavy industry now is also known for world-class medical research and work soon could begin on offices for 4,000 Cerner Corp. employees.

Join us for a panel discussion to hear about the careful planning that put "The Dot" on the development map — and where those efforts might lead in the years ahead.

## Our panelists include:

**Dr. Barbara Atkinson** — Executive Vice Chancellor, University of Kansas Medical Center

**Jeff Boerger** — President, Kansas Speedway

**Dr. Tom Burke** — President, Kansas City Kansas Community College

**Dan Lowe** — Managing Partner, RED Development LLC
